

Lab Contract # 2

Lab contracts stress practice in developing reading skills and help you prepare for the exit exams. New materials will be explained in class, but remember that the lab manual contains specific directions for all assigned programs. Read the lab manual instructions, select a program to work on, and record your answers on the worksheets provided. It is important that you do the programs correctly and that you strive for scores of at least 80%. Remember to challenge your incorrect answers!

It is extremely important for you to note that **not only must the contract be completed as directed, but you must complete the required minutes as well.** Therefore, should you find that the scheduled in-class lab time is insufficient to finish the contract, you will need to return to the lab on your own time to complete the assignments. Likewise, if you finish early, please see me for additional work, as you must complete the time obligation.

Your contract will be evaluated on the following:

- completion of contract – all assigned programs are done**
- record keeping – all work is scored and properly recorded**
- accuracy in following directions**
- completion of required lab minutes – instructor has verified in-class minutes**
- attendance in scheduled lab**

Requirements	Programs
One hour	Weaver Comprehension
One hour	Weaver Vocabulary
Two	Topics From the Restless (Book Three or Four)
Five	Main Idea (Level L) Specific Skills Series
Five	Drawing Conclusions (Level L) Specific Skills Series
Nine	RFU (continue at your level)
